During 2010, the Florida Department of Transportation and its partners will be updating the Florida Transportation Plan. The 2060 FTP is a plan for all of Florida – including local, regional, and state partners who make decisions about future transportation investments affecting safety, security, preservation, and mobility needs. Throughout the year, the public, partners, and stakeholders will have opportunities to provide input to this Plan.

You are invited to learn more about the 2060 FTP at this free webinar. It will provide an overview of the process to be used in updating the Plan and will let you know how YOU can be involved.
